Plaza Dynamics
The Ultimate Consulting Service

Who are we?

Plaza Dynamics is a rapidly growing international organization, specializing in providing high-quality, cost-effective IT and e-Business solutions to the SME marketplace.

Our Aim

We aim to assist our customers in becoming more profitable through the effective leveraging of affordable IT and e-Business solutions.

Key to Plaza's success has been its ability to deliver 'on demand' services and solutions to businesses, via its network of over 50 Consultants. This allows companies to take advantage of some of the most recent developments in technology, without high initial investment and support costs.

Web Solutions

Plaza Dynamics offers a wide range of web solution to meet the most demanding business requirements.

Many of our solutions are available on a simple monthly subscription - reducing the initial cost and time to market for your new business ideas.

Solutions include:

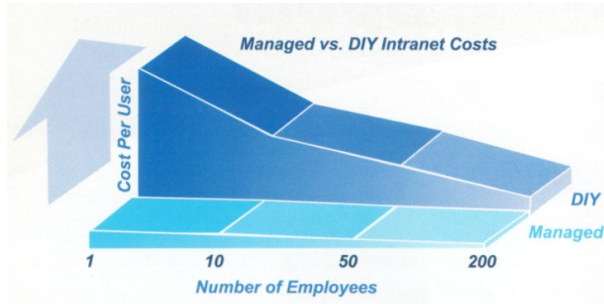

- **Bespoke Website Solutions**
- **e-Commerce Solutions**
- **e-Promotion**
- **e-Learning**
- **Multimedia & CD Card Solutions**
- **Low-cost Website Rentals**

If you already have a website, then our **Web Doctor Service** can review the health of your website and prescribe treatments to revitalize its performance.

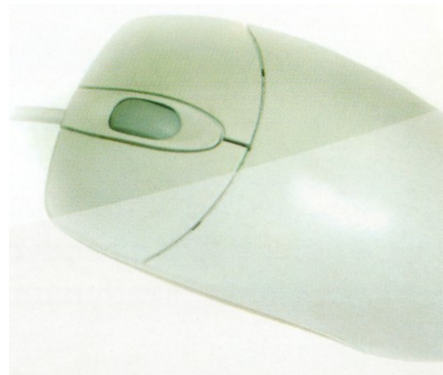

Intranet and Extranet Solutions

Plaza Dynamics brings corporate-level Intranet solutions within the reach of all businesses.

Intranets provide huge benefits for businesses by massively improving internal communications and access to critical information. Extranet access provides an excellent means to enhance client business and collaboration. However, many smaller companies have previously been unable to acquire such technology due to the high start-up costs. Plaza Dynamics offers feature-rich managed Intranet/ Extranet capability from as little as \$30 per user per month, making it affordable to gain corporate-quality business services. Intranets are an invaluable tool for businesses needing to rapidly deploy:

- **New Projects**
- **New Services**
- **Training Programs**
- **Improved Communications**
- **Compliance with New Regulations**

Managed IT Services

Plaza Dynamics provides a range of managed IT solutions to provide a cost-effective way for companies to maximize the benefits of their IT investment. We use the Internet as an enabling technology to deliver corporate-strength IT service solutions to our clients. Our tools allow us to take over the day-to-day management of your IT infrastructure, whilst providing a highly skilled Technical Assistance service, should you require immediate support.

Services include:

- **Remote Data Back-up & Recovery**
Our secure and automated backup utilizes the latest data encryption ensuring your critical business data is protected from loss and potential disaster.
- **Remote IT Management**
This service ensures your PCs, Laptops and Servers are up to date with Microsoft updates and working efficiently, maximizing up time and increasing workforce productivity.
- **Security Services**
A massive increase in computer virus and hacker threats means all businesses need to secure their IT systems. Completely managed antivirus and firewall ensure systems are protected and always up to date.
- **PC Hardware, Software & Consumables**
We offer a huge range of competitively priced products from computer memory to software. In addition, our relationship with Ingram Micro also gives us the edge with state of the art PCs and laptops.
